“ My sis, I have so many memories of us. You were my second mom and my best friend. Growing up you always were there for me. You knew me better than I knew myself. As a teenager you always were there for me and always understood me. You and mom but mostly you my sister always cared about my well being and always wanted me to be happy. You had all your 6 kids little and still took Kenny and Melissa in and took care of them and treated them like they were your own. I have so much memories of My sister and Larry and the kids. My sis was a very giving person and would give her blouse off her back to give to you and if she only had only had a peice of bread to eat she would give it to you with no hesitation. I wish I could have told you how much I love you and thank you for always being there for me.. plz give mom a big hug from me.
